Madera Pine Is Best

IN QUALITY, FINISH
AND APPEARANCE

American Lumber and Investment Company

El Paso Homes of Character

Built By Perry-Kirkpatrick Realty Co.

This beautiful home was built by the Perry-Kirkpatrick Realty Company, on McKinley Avenue, in Morningside Heights Addition. It is built of Greendale Rug Brick, foundation, chimneys and piers with concrete caps and the balance of the house is built entirely of Madera pine. All of the exterior woodwork is rough sawed and is stained with brown walnut stain. It is especially true to the bungalow architecture as it is constructed of frame. It is hard to get out the true bungalow art with a brick house. The living room and dining room of this home are very large and have heavy beamed ceilings and solid paneled walls. The mantels in these rooms are special features, being of large, heavy type reaching to the ceiling. This house has high grade white oak flooring throughout. The bedrooms, kitchen and bath are finished in white enamel. A large basement with heating plant, coal room and laundry are valuable features. The servants room with bath and garage in connection is built of madera pine with shingle roof to correspond with the house. Taken as a whole, this is a truly beautiful bungalow.

INTERIOR DECORATION

Why, of course, you grow weary and actually nervous looking at the same old Wall Paper.

Brighten up the rooms with new paper. Get something different, something up to the minute, something cheerful.

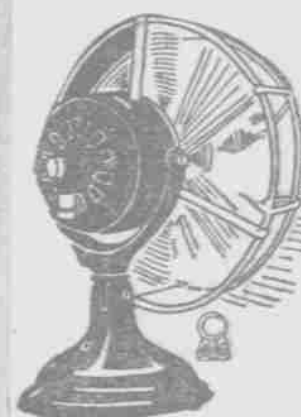

New decorations in the home are equal to a vacation. You will find here the latest designs and the newest ideas in interior decoration.

We will gladly make any suggestion to assist in working out a harmonious decorative scheme in any home.

Too Hot To Work?

Telephone us for an ELECTRIC FAN, and put it on your desk. You'll be surprised at the change it makes in the atmosphere of your office. No matter how hot the day—how oppressive the atmosphere, it will produce a refreshing breeze.

The Electric Fan

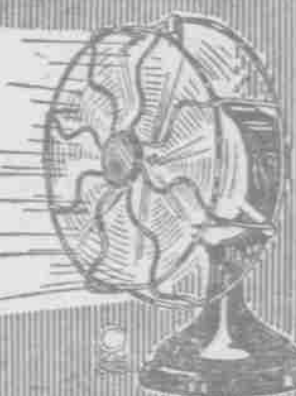

Is the best investment in summer comfort that you can make, and it is a very small investment, too—almost too small for consideration when you stop to think how many seasons a FAN will serve you.

EIGHT INCH and TWELVE INCH sizes for the home—light in weight, beautiful finishes, graceful designs, economical. You can move them from room to room and enjoy their cool breezes wherever there is a lighting socket.

That Little Bank The Myrtle Trading Place

Has been talking about for a year is now established. Our main Branch Bank is located in Washington D. C., where you can get 500 million dollars or more any day or night you may need it. You don't need a gold or silver certificate to get credit at our bank. A mule certificate, a corn certificate or a bean certificate, a copper certificate or R. R. stock certificate, a lead certificate is just as good as gold or silver certificates at our bank and at Myrtle Trading Place you can bring in the goods themselves and get a credit. Phone 5162.
